

3M™ Scotchlok™ IDC Tap Connector UB2A-D Box

UB2A/UB2A-D connectors have a pre-crimp feature that gives the craftsperson a time-saving edge. By positioning the connector on the conductor and pre-crimping, the conductor is prevented from slipping out of the connector before the crimp is completed.

3M Id : 80-6107-6089-6

GTIN(UPC/EAN) : 0 00 54007 92694 8

Additional Information

A factory installed sealant protects against corrosion and seals out moisture. The UB2A/UB2A-D connectors permit tapping directly onto an existing conductor without interrupting service. In ready access closures, these connectors eliminate cutting cable pairs, opening circuits, and piecing out wires. The UB2A-D connector is a dry version of the UB2A model.

Characteristics

Cable Type	PIC, PULP, PAPER
Composition	Dry
Connector Type	Bridge Tap/2 Conductor
Copper Wire Gauge	26 - 19 AWG
Flame Retardant	No
Insulation Outside Diameter	0.082 Inch
Operating Temperature Range	-40 to 285 Degree Fahrenheit
Product Family	IDC for Communications Applications
RUS Listed	Yes/BA
