Product Description	Copper patch cords are a critical component to ensuring the end to end performance of a network. HellermannTyton's patch cords are manufactured and tested to the highest quality to meet the component compliant requirements of the ISO/IEC 11801 and ANSI/TIA/EIA 568-C.2 standards. The patch cords incorporate a low profile plug suitable for high density applications with an integral strain relief boot to minimise forces on the terminations and to manage the bend radius of the cable. Cable are sheathed in LSOH material making them suitable for internal use.
