The hub expands the potential of your device by connecting peripherals that can help you do your job faster, easier and better, such as USB headset/microphones, barcode scanners, webcams, keyboards/mice, power meters, portable card readers and external storage drives for uploading and downloading important files.

Supports the Latest USB Devices at Fast USB 3.2 Gen 1 and USB 3.2 Gen 2 Speeds

This compact hub features a variety of USB-A and USB-C ports to fit all your working needs. One USB 2.0 Type-A port connects a mouse or keyboard. The hub is especially recommended for high-bandwidth USB devices, such as security cameras and high-resolution webcams.

The USB-A ports each support 5V 1.5A (7.5W) fast charging of connected devices, while the two USB-C ports support 5V 3A (15W) for charging tablets, e-readers or other devices.
